ABSTRACT

This directory lists the Elementary and Secondary Education (ESEA) Act, Title IV projects undertaken by school library media centers to improve their collections and services in school districts throughout the state of Maryland. The entries in the directory are arranged alphabetically by local education agency name (i.e., school district), and each entry contains information on contact persons within the school district, the school district mailing address and telephone number, a description of the purpose of the project(s) undertaken by the school district, a breakdown of funding allocations by activity area, and a short list of project priority areas. A table listing priorities for allocation of funds throughout the state as determined by local educational agencies and institutions, a table listing initial allocations under Title IV for fiscal year 1981, and a table listing school library media resources and instructional materials as indicated in ESEA Title IV applications are included. INTRODUCTION

This publication highlights the ESEA Title IV, Part B projects of the school systems in Maryland. Information contained herein is taken directly from project applications for the 1981 fiscal year. Priorities are subject to change as new projects are developed and submitted, but the basic goal of ESEA Title IV, Part B has remained essentially the same.

Since 1965, federal funds have been made available through the Elementary and Secondary Education Act and its amendments for the specific purpose of establishing and strengthening school libraries. The effects of these funds has been most significant. School library media centers were given the impetus to develop where none previously existed; to expand and improve in their capacity to support educational programs; and to respond more effectively to changing programs or strategies and student needs, interests and abilities.

Each school system established goals and priorities in light of local needs and expectations. In every instance, whether educational innovations were being considered or existing programs strengthened, ESEA Title IV, Part B funds have been instrumental in improving the quality of education for Maryland students.

Information in this publication was compiled by James L. Smith - Specialist, Educational Technology and Elsie H. Lawson - Specialist, Staff Development.

PROJECT PURPOSE: The focal point of Title IV, Part B during FY '81 was to provide assistance to the Project Basic staff in meeting supportive needs relative to school library media centers. Two other areas of emphasis were:
1) Maintaining the media centers in the school system with the necessities to meet the ever increasing demands relative to the educational process, and
2) Equipping media centers with the proper resources to provide the students with the instructional tools so that people, places, culture and the times - past, present, and future can be better understood.

PROJECT PURPOSE: The overall program purpose for Title IV B (FY '81) was the acquisition of basic equipment for elementary schools and the purchase of microcomputer units for placement at the elementary and senior high level. High cost students - gifted and talented as well as reading disabled - were considered in the project. Funds were earmarked for upgrading and expanding book collections in six senior high schools and the nonpublic schools elected to use Title IV B funds to purchase print and nonprint library resources and instructional equipment. Nonpublic purchases did not include microcomputers.

Project activities included developing instructional programs for gifted and talented students that involved the microcomputer in the learning process; training teachers in instructional strategies and process methodology using the microcomputer; inventorying school equipment and allocating the quantities and types of equipment for each school in line with identified needs; developing a position paper on the appropriate use of computers; and developing and mandating a basic workshop for teachers entitled "Computer Application for Mathematics Teachers."

TELEPHONE: (301) 396-1560 or 396-7187

PROJECT PURPOSE: The Baltimore City Public Schools adopted reading improvement and Project Basic as the priorities for the Title IV, Part B project, with particular emphasis on the competency of reading but supporting all of the competencies. Each school in Baltimore City has its individual programs to implement according to the system's objectives. The central Media and Technology Office supplemented the program of each school in the following ways:

- Provided inservice education in the utilization of media;
- Centrally purchased, cataloged, and processed materials for school media programs;
- Provided additional media materials to schools which were too small to provide adequately for the educational needs of students and teachers;
- Provided a professional library collection and service for educators and administrators.

Eighty nonpublic schools participated in this project. These schools utilized their funds to purchase library resources and instructional equipment.

TELEPHONE: (301) 494-4035 or 494-4300

PROJECT PURPOSE: The objective of this project was to provide the students of Baltimore County with library media materials which would help them to achieve established instructional goals and objectives, with an emphasis upon the interdisciplinary programs of
- basic skills development (Project Basic),
- health education,
- career education,
- consumer education,
- environmental and energy education.

Funds were earmarked to purchase materials for use with students identified as gifted and talented. The county provided special training for teachers who work with these students. Curriculum specialists and school library media specialists participated in the selection process and attempts were made to acquire resources which supported the ongoing guidance programs, gifted and talented projects, and improved reading competency. Print and nonprint materials were purchased as well as sound recordings and reproduction equipment. Nonpublic schools used their portion of the total allocation to purchase instructional resources and equipment.

LEA: Calvert County

CONTACT PERSON: Anne C. Jones
Media Specialist

MAILING ADDRESS: Calvert County Public Schools
Dares Beach Road
Prince Frederick, Maryland 20678

TELEPHONE: (301) 535-1700

PROJECT PURPOSE: Calvert County used the funds provided through this project to purchase a variety of resources to help strengthen the reading program and to expose students to the best in literature. Materials were purchased to support Project Basic and the specific competencies to be developed in reading, writing, mathematics, career education, survival skills and citizenship. County history, government, and economics, as well as life in communities around the world was also emphasized. Bibliographies of materials were developed to aid in selection; the library media skills program was strengthened; and the use of video as a teaching-learning strategy was instituted. In all of this, it was expected that program effectiveness would be exemplified by improvement in student scores and wide and frequent use of materials purchased. Nonpublic schools used funds to strengthen school library media center collections of nonprint media and made plans to continue using the county collection of 16mm films to enrich teaching.

PROJECT PURPOSE: One of the main purposes of the ESEA Title IV, Part B project in Caroline County was to provide print and nonprint materials for the school library media centers. The second purpose was to provide additional instructional equipment and materials for teaching. Activities which grew out of the project included the following:

- Teachers, administrators, media specialists and instructional supervisors prepared lists of needed titles for each school;
- Teachers, administrators and supervisory personnel evaluated instructional materials and equipment designed to improve student achievement in language arts, social studies, and mathematics and selected those items which seemed to best reflect local needs;
- Nonprint materials were selected by appropriate personnel at school and system level, based upon recognized needs in the nonprint collections;
- Inservice was provided to help teachers utilize those materials and equipment selected for purchase.

PROJECT PURPOSE: This project was designed to support curriculum development by the purchase of instructional resources and equipment such as:

- Materials to support Project Basic;
- Equipment to inspect, clean, and repair film;
- Video cassette recorders to follow through with the county's ten-year plan for the use of instructional television;
- Equipment and library books for students at St. John's Catholic School.

PROJECT PURPOSE: Title IV B funds were used in Cecil County for the acquisition of school library media resources, books, printed and published instructional materials. Emphasis was placed on audiovisual materials such as filmstrips, sound recordings, cassette tapes, transparencies, and film loops. It is the expressed intention of this school system to improve the availability of library resource materials to enable educators to do a better job of meeting the educational needs of students. The following objectives were met:

- To achieve a better balance between print and nonprint materials;
- To improve the communication skills of students through appropriate reading experiences;
- To motivate students to read for further information through the use of recordings, filmstrips, and other media designed to develop interest in the various academic subject areas;
- To increase the instructional utilization of school library resources by students and members of the professional staff;
- To provide supplementary print and nonprint materials.

Instructional equipment purchased with Title IV B funds related to the general objective of improving the teaching/learning process within county schools.

PROJECT PURPOSE: Three out of every ten public school pupils in Charles County reads below the level established by national norms and as long as this problem exists, reading will be one of the county's highest priorities for ESEA Title IV B funds. Specific objectives of the Title IV, Part B project were:

- Adding 16mm films to the central IMC collection on a wide range of topics, especially films to complement the newly-developed curricula in health, social studies, and the gifted and talented program;
- Selecting schools to receive Title IV, Part B funds so that it is easy to identify improvements made in the collections.

PROJECT PURPOSE: The purpose of this project proposal was to help achieve a balance between print and nonprint materials in the school library media center collections and to eliminate publications which are racially or sexually biased. Emphasis was placed on enlarging the Central Film Library. The county had set as a goal the development of collections so that each school would have at least 10 print and 10 nonprint items per student. Small schools having inadequate library media center collections were slated to receive additional funds to help improve the variety of materials which would support the curriculum. Books, recordings, study prints, filmstrips and loops, maps, charts, slides, transparencies, and films were purchased.

TELEPHONE: (301) 694-1359 or 694-1668

PROJECT PURPOSE: The Frederick County Title IV, Part B project is twofold. One phase was to improve instruction for students in social studies, science, and language arts. In pursuance of the "Five Year Plan for Education," funds were utilized to bring school library media collections closer to the state standards. The second phase of this federally funded project was to assist middle and high school gifted and talented students by purchasing additional instructional materials and videotape recording equipment. This equipment was added to the Central Instructional Materials Center. The main emphasis for the nonpublic schools was to update the library media collections. Materials which developed and strengthened those skills needed for success in school life today and in occupational/career life tomorrow were purchased.

PROJECT PURPOSE: The purpose of this ESEA Title IV B project was to provide additional school library media resources, printed materials, and audiovisual equipment. The county is striving to meet the numerical criteria for equipment specified in "Criteria for Modern School Library Media Programs," a Maryland State Department of Education publication. Videotape players and recorders and television monitors were purchased to make possible the utilization of Maryland Instructional Television. Much of the equipment will be housed in the Central Media Center and circulated among the schools. Additional audiovisual equipment was purchased for small schools. Books and software to supplement the recently implemented appropriate assistance reading programs related to Project Basic for secondary students were also purchased. Nonpublic schools in this county elected not to be a part of the project this year.

TELEPHONE: (301) 838-7300

PROJECT PURPOSE: Support for and strengthening of teaching in the academic areas was the major objective of this project. Print and nonprint materials were purchased to provide students opportunities to use materials which were relevant to their individual interests; to strengthen their study skills; to broaden their reading in the content areas; and to help them recognize the importance of academics in their daily lives. Books, filmstrips, cassettes, tapes, records, films, video cassettes, study prints, media kits, and other audiovisual formats were purchased. The unique needs of gifted and talented programs were considered as part of this project. Consequently, student-use materials were added to library media center collections to enhance and expand the gifted and talented program in the schools. A representative of the nonpublic schols in Harford County worked with the committee to plan this project and to add the nonpublic perspective to the total plan. Nonpublic schools used the same guidelines, policies, and procedures as public schools.

PROJECT PURPOSE: Funds were used to purchase additional instructional hardware and to equip a central color television studio for the production of instructional videotapes. These tapes are to be used in classes in the academic subjects. Tapes produced by supervisors and resource teachers are to be used for the inservice training of teachers. Gifted and talented students will produce original videotapes. Two microcomputers were purchased for each of the eight high school media centers. These are for student use in support of academic programs in mathematics, science and computer literacy. Title IV, Part B funds were also used to purchase instructional films (16mm) which circulate to schools through the Central Film Library.

PROJECT PURPOSE: Kent County utilized their entitlement in two major areas - resources to supplement instructional programs and video equipment for high school instructional programs. New text adaptations in social studies dictated a need for print and nonprint supplementary resources. Monies budgeted for the central film library were used to replace obsolete films and other materials. Emphasis in the 16mm film collection was in the social studies and in materials which will circulate to all schools. Nonpublic schools in Kent County declined the invitation to participate in the project.

PROJECT PURPOSE: Project funds were requested to support instructional programs in public and nonpublic schools. Materials were selected from standard professional review sources and from annotated bibliographies prepared jointly by the Department of Instructional Planning and the Department of Instructional Resources. Library media center collections were assessed to identify areas of need and a variety of 16mm films were selected after evaluation and recommendation by subject area committees. Audiovisual equipment was purchased and the special needs of gifted and talented students were considered. Attempts were made to secure materials and equipment which were not available through regular county programs. The nonpublic schools in the county actively participated in the development of this project and used the county's buying process to secure the materials deemed useful in nonpublic school programs. The county processed and cataloged materials for nonpublic schools in the same way processing and cataloging is done for public school library media collections.

TELEPHONE: (301) 773-9790 or 952-3707

PROJECT PURPOSE: The primary purposes of this project were to provide additional opportunities for reading and skill improvement for students, and to provide additional media center instructional materials. Print and nonprint materials were purchased to accommodate the varied interests, abilities, and maturity levels of students. Necessary equipment to support the library media program was also purchased.

In designing the project the special needs of the gifted program, the elementary social studies skills program, the career education program, the language arts program, and the literature film program were given consideration. Teachers helped identify areas of need; library media center collections were evaluated; interest centers and learning skills centers were developed; displays were set up; and bibliographies were distributed. Nonpublic schools assisted in the development of the project. Formal and informal measures were employed to determine the effectiveness of materials purchased. Formal measures included testing through the Office of Testing and Accountability. Informal evaluations were made through visitations, observations, and written and/or oral comments of users.

TELEPHONE: (301) 475-5511

PROJECT PURPOSE: The main purpose of Title IV, Part B funds was to enrich the reading opportunities found in the regular instructional program by the purchase of high interest, low level materials; 16mm films; and a demonstration microcomputer for use in reading instrtuction. As a result, the following objectives were met:

- Services and collections of library media centers were improved;
- Materials were added which reflected the total reading program;
- Additional 16mm films for the Central Film Library collection were provided; and
- A microcomputer and software in the area of reading were purchased.

TELEPHONE: (301) 791-4184

PROJECT PURPOSE: Title IV, Part B funds were used by specific schools and the Instructional Resource Library in the following two ways:

- To enlarge and update library media holdings to support the development of Project Basic competencies and objectives as established by the Maryland State Department of Education; and

- To continue the development of an instructional support system of materials and equipment in keeping with the recommended guidelines of the State, American Library Association, and Association for Educational Communications and Technology. These programs enhanced the total educational process by providing current media materials at all grade levels, thus enabling classroom teachers to extend traditional methods and materials of learning and to individualize needs and purposes of students more effectively.

MAILING ADDRESS: Wicomico County Board of Education
Long Avenue and Mt. Hermon Road
Salisbury, Maryland 21801

TELEPHONE: (301) 742-5128

PROJECT PURPOSE: Wicomico County used the funds provided to improve the quality and quantity of library resources in the county. Funds were earmarked to increase material holdings in schools with small student populations; to provide resources to promote the reading and library media programs, and to provide software to support Project Basic. Schools with student populations below 200 were given funds. The results of ninth grade functional reading tests were analyzed and areas of need were identified. Appropriate software to help meet these needs was purchased. Materials to help motivate students to read were added to the school library media center. County public school personnel worked closely with nonpublic school personnel.

FUNDING FOR PUPILS IN PUBLIC INSTITUTIONS

The pupils who attend schools in the public institutions of Maryland are considered in the distribution of ESEA Title IV, Part B funds. The following institutions participated in the program in FY 1981:

Department of Health and Mental Hygiene

Mental Retardation Administration
- Rosewood Center

Mental Hygiene Administration
- Clifton T. Perkins Hospital
- Regional Institute for Children and Adolescents
- Spring Grove Hospital Center
- Springfield Hospital Center

Juvenile Services Administration
- Boys' Forestry Camp
- Boys' Village of Maryland
- Maryland Training School
- Montrose School

Department of Public Safety and Correctional Services

- Maryland Correctional Pre-Release System
- Maryland Correctional Institution
- Maryland Correctional Institution for Women
- Maryland Correctional Training Center
- Maryland House of Correction
- Maryland Penitentiary

Other Institutions

- Maryland School for the Deaf - Columbia
- Maryland School for the Deaf - Frederick
- Patuxent Institute

INSTITUTION:	Juvenile Services Administration
CONTACT PERSON:	Cynthia Steinhoff Librarian
MAILING ADDRESS:	Juvenile Services Administration 201 West Preston Street Baltimore, Maryland 21201
TELEPHONE:	(301) 383-6438
PROJECT PURPOSE:	The main purpose of this project was to purchase additional library resources to support the institution's curriculum. Emphasis was placed on print and nonprint materials to fulfill the needs of the teachers and students.

FUNDING:

Maryland Training School for Boys	-	$1,672.00
Montrose School	-	1,597.00
Youth Centers	-	629.00
Total		$3,898.00

PRIORITY AREA(s): Library Media Materials
